SUMMARY & SKILLS

Results-driven Data Science professional with 5+ years of experience in AI, ML and strategic consulting.

Technical	Statistics, Machine Learning, Deep Learning, Customer Analytics, NLP, GenAI
Language and Frameworks	Python, SQL, PyTorch, Azure Databricks, Docker, MLflow, AWS ECR, FastAPI
Libraries	Pandas, NumPy, scikit-learn, OpenCV, Flask, LangChain, LangGraph, FastAPI

EXPERIENCE

Lead Data Scientist Aug 2025 – Present
Material+ *Gurugram, India*

- **McKinsey (QuantumBlack) – AI Consulting**

- Design and Implementation of Agentic AI and LLM use cases in supply chain portals. Working with cross-functional teams (.NET developers, testers) to propose AI-driven solutions. Designing internal **Assistants/Agents** to reduce training time for vendors using smart forms and chat-guided shipment creation

Senior Data Scientist Nov 2022 – Jul 2025
TransOrg Analytics *Gurugram, India*

- **Tata Starbucks - Analytics Consulting**

- Led a team of 6 to provide consulting to client with **450 + stores** across India, designing and implementing customer analytics solutions to drive customer acquisition, frequency, reactivation and **operational efficiency**.
- Segmented 3M+ Tata Starbucks loyalty customers into 32 actionable groups using RFM, K-means, and business rules to drive lifecycle campaigns, leading to ₹1.7 Cr in monthly lift & tailored offers to boost retention.

- **RBL Bank – Data Science Consultant**

- Developed a logistic regression model to build a credit risk application scorecard to predict Probability of Default (PD) tailored to the client's lending portfolio. Evaluated model performance using Gini Coeff, KS, and AUC

Data Science Researcher Dec 2021 - Jun 2022
LOHUM CLEANTECH PVT LTD *Greater Noida, India*

- Developed an **ML regression model** that reduced cell testing time by 50 percent from 4 to 2 hours, increasing daily battery production. Implemented systems for data collection, cleaning to enhance manufacturing efficiency.

Data Science Intern Oct 2021 - Dec 2021
Analytics Vidhya *Gurugram, India*

- Designed an **information retrieval** using scraped forum texts to gauge organizational sentiment (F1 score: 0.79) and developed a Data Science skill evaluation tool to boost website traffic on Statistics, ML, NLP, and SQL.

Senior Researcher Jun 2017 - Dec 2018
ATTENTIO RESEARCH CENTER– GLOBAL DATA *Hyderabad, India*

- Conducted global research on power plants, overseeing data generation and developing a central database. Prepared monthly reports on power commodities for client insights, while creating an **OCR pipeline** using Image Processing algorithms and OpenCV to improve data extraction accuracy from documents, PDFs, and invoices.

EDUCATION

Specialization in Data Science and Machine Learning , Scaler	2020-2021
B.Tech in Power System Engineering , University Of Petroleum and Energy Studies, 67.6%	2013-2017
Class XII Science , St. Xavier's Sr. Sec. School, 79.8%	2012-2013
