

SANKET UTTAM KAMBLE

Mobile – 9022202257

Email: SANKETUK57@GMAIL.COM

Experience Summary

- 5+ years of IT experience in Analysis, Design, Development, Implementation, Testing and Support of Data Integration and Data Quality solutions.
- Strong hands-on experience in Informatica **PowerCenter** 10.5.6, **IICS**, **Informatica Data Quality** (IDQ), CDQ, Data Governance and **Informatica MDM** for developing ETL and data quality frameworks.
- Practical exposure to **data profiling**, cleansing, validation and quality rule implementation using IDQ. Utilized strong understanding of **data integration, data governance, and SQL** to support business-critical solutions.
- Proficient in **Data Warehousing** concepts - Star Schema, Fact & Dimension tables, Slowly Changing Dimensions (SCD Type 1 & 2).
- Strong understanding of CDI, CAI, API Manager, and Secure Agent architecture.
- Hands-on experience in database systems like Oracle, SQL Server and **Snowflake**.
- Demonstrated ability to collaborate with business stakeholders and source system teams to define data governance and data quality requirements.
- Good knowledge of data governance principles, metadata management.
- Expertise in performance tuning, reusable transformations, and automating workflows and monitoring data quality reports.
- Perform regression testing, performance testing, and User Acceptance Testing (UAT).
- Clear understanding of **SDLC/STLC** – Testing & Defect lifecycle & Agile method of delivery.
- Optimize data workflows for performance, reliability, and cost-efficiency.
- Participate in sprint planning, requirement gathering, and roadmap reviews with BI Tools and Revenue Systems teams.
- Team player with excellent communication and documentation skills.

Technical Expertise

ETL:	Informatica Powercenter 10.5.6 / IICS, Informatica Data Quality (IDQ), CDQ, Data Governance, Informatica MDM
RDBMS:	Oracle 12c
Database Tools:	Oracle, SQL Server, Snowflake, AWS
Tools:	Informatica PC, IICS, PowerBI
Cloud & Big Data :	Databricks (SQL & PySpark), Snowflake
Visualization Tools:	Power BI
Languages:	SQL, Python (basic)
OS & Tools:	Windows, Unix, SQL Developer, Git

Career Profile:

Dates	Organization	Role
07/2019 – 05/2022	USK Infotech	DATABASE INTERN
06/2022 – 11/2023	Brain Vision Technology	ETL DEVELOPER
01/2024 – 10/2025	Fractal Analytics	DATA ENGINEER

Qualifications:

Course	Institution	Board /University	Year of Completion	Aggregate (%)
BE	D Y Patil School of Engineering	SPPU	2022	74.97
HSC	A.I.S.S.M.S	Maharashtra Board	2018	71.54
SSC	S.S English Medium School	Maharashtra Board	2016	86.80

Intern Experience:

- Developed ETL process to load the Data from various database systems and text files into single Warehouse Database.
- Experience in designing and developing from varied transformation logic like **Router, Filter, Expression, Aggregator, Joiner, Joiner, Union, Source Qualifier and Unconnected and connected lookups.**
- Created Dimensional Tables Using SCD Type-1.
- Expertise in Oracle 11g/12c, SQL, Functions, Procedures and Materialized Views.
- Practical understanding and experience on SQL statement.
- Practical understanding and experience on SQL Joins.
- Practical understanding and experience on SQL Set Operators.
- Practical understanding and experience on SQL Sub-Query.

Project Profile #1

Customer	Sanofi
Period	Jan-2024 To Oct-2025
Description	This project deals with the capturing policy and claim events to build a DataMart which contains facts, dimensions and aggregated tables. Project contains the flow from having a policy for policyholder to claiming the returns including every aspect of the hierarchy.
Role	Informatica Developer
Project Specific Tools	IICS, Informatica Power center, Oracle, Snowflake, CDI, PowerBI

Highlights	Responsibilities as a Informatica Developer: • Understanding Business requirements. • Have created ETL mapping, sessions, Workflows as per the requirement. • Created Mappings using various transformations like Update Strategy, Lookup, Router, Joiner, Aggregator, Filter, Lookup, Union and Expression. • Implemented slowly changing dimension (SCD) Type 1 and Type 2 for Change data capture. • Created, Scheduled and configured workflows and sessions using Informatica workflow manager. • Involved in performance tuning of Informatica mappings. • Designed and developed Informatica Mappings and Sessions based on user requirements and ETL rules to load data from source Flat files to target tables. • Contributed in Unit testing for developed mapping using sample data. • Created Different types of Tasks and Sessions using Informatica Workflow Designer. • Created reusable mapplets/transformations embedding business logic. • Used Informatica Scheduler to schedule the Informatica Jobs. • Develop and test tasks, ensure adherence to agreed timelines, and communicate status of tasks to team lead. • Created Unit Test Documents.
------------	---

Project Profile #2

Customer	Microsoft
Period	July 2022 -Nov 2023
Role	Data Quality Analyst/ IICS Developer
Responsibilities	• Managed end-to-end administration of IICS including user management, role assignment, secure agent installation, configuration, and upgrades. • Handled IICS onboarding activities for new applications across Cloud and On-Premise environments. • Perform detailed data profiling to identify data anomalies, patterns, nulls, duplicates, and standardization needs.. • Monitored IICS pipelines (CDI, CDI-Elastic, Mass Ingestion, Real-time ingestion, CDC). • Design and implement data cleansing, parsing, standardization, validation, and enrichment rules using Informatica CDQ. • Optimized performance of integration tasks using best practices for mapping and task execution. • Provided support to developers for CDI mappings, DQ rules, synchronization tasks, and mass ingestion frameworks. • Define and implement enterprise data governance policies, standards, and best practices. • Conducted code reviews and validated performance of data integration jobs. • Performed SQL-based validation, data profiling, and issue analysis. • Optimized performance of integration tasks using best practices for mapping and task execution. • Conducted knowledge-sharing sessions for development and support teams.

Certifications and Achievements

- **Microsoft Certified:** Power BI Data Analyst Associate
- **Databricks Certified Associate Data Engineer**
- Fractal Certified: SQL Developer
- STAR Award
- SPOT Award

Declaration

I hereby declare that the above mentioned Information is correct up to my Knowledge and I bear the responsibility for the correctness of the above mentioned particulars.
