PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS) | Senior Business Analyst (Assistant Consultant)

July 2022 – August 2025

- Led requirement gathering workshops across Front Office, Risk, Finance, Operations & Technology teams.
- Worked extensively on Security Master, Instrument onboarding, Static Data management & Corporate Actions processing.
- Translated business requirements into BRDs, FRDs, FSDs, user stories and acceptance criteria.
- Performed gap analysis, impact analysis, and detailed data mapping across upstream and downstream systems.
- Conducted SQL-based data validation, reconciliation, and variance analysis.
- Supported regulatory and Basel-aligned risk reporting initiatives.
- Managed SIT & UAT cycles including defect triage, regression testing, and sign-offs.

- Collaborated in Agile environments (Sprint planning, backlog grooming, retrospectives).
- Supported production releases and post-implementation issue resolution.

ANZ Banking Group | Process Specialist – Post Trade Settlements

November 2010 – July 2022

- Supported post-trade settlement across FX, Bonds, Equities, Fixed Income and Derivatives.
- Performed T+1 reconciliations and root cause analysis for settlement breaks.
- Handled reference data validations, static data controls, and corporate action related impacts.
- Processed SWIFT payments (MT202, MT103) ensuring compliance and control adherence.
- Contributed to BRDs and system enhancements for regulatory-driven changes.
- Participated in functional, regression and UAT testing.
- Worked closely with global stakeholders across APAC & EMEA regions.
